# About MEGAMAN®

## Who We Are

Artificial light enhances the way we live and work. It brings us safety, comfort and productivity. MEGAMAN® is committed to providing light in a way that is truly sustainable, energy-saving and of such a quality that it brings a positive difference into the lives of all who use the company's innovative LED lighting solutions.

MEGAMAN® is proud to be the only major brand to have exclusively manufactured low-energy lighting products throughout its entire history, offering more than 20 years of industry expertise and innovation to the lighting market.

Beginning in 1994 with the highly successful production of CFL light sources, MEGAMAN® has evolved to become a complete low-energy lighting solutions provider. MEGAMAN® has built a reputation for producing high-performance LED light sources that offer a true replacement for traditional metal halide and halogen – combining quality lighting performance with substantial energy savings.

MEGAMAN® is now applying its market-leading experience to an even wider range of product offerings including revolutionary Smart Lighting control, an extensive range LED Components and a suite of energy-efficient luminaires and lamps.

- *INGENIUM*® ZB Smart Lighting Solution provides further energy saving potential for users and allows them have full control of smart devices via the mobile app from anywhere in the world
- An extensive range of Luminaires and Lamps are developed for both indoor and outdoor applications across diverse industries
- TECOH® high performance LED Components are designed in different shapes, sizes and lumen packages to meet customer specifications
- MEGAMAN® lighting products are widely distributed throughout the world including Europe, Asia Pacific, Middle East, North America and Latin America
- Our advanced Research and Development facilities will ensure a continuous supply of innovative and sustainable lighting products in the market

MEGAMAN® continues to play a leading role in combating climate change and carbon emissions by pursuing continuous innovation in the production of low-energy lighting solutions.

## MEGAMAN® Milestones

2016

Launched U-DIM™ technology, seamless dimming and compatible with the widest range of existing dimmers  
Launched Hybrid Reflector technology offering excellent optics, efficacy and beam control  
Introduction of Perfect White and *INGENIUM*® ZB technologies into TECOH® range

2015

Launched *INGENIUM*® ZB, a ZigBee compatible smart lighting system for smart living  
Launched a full range of LED Luminaires  
Expansion of TECOH® range with TECOH® APx

2014

Launched first smart lighting range, *INGENIUM*® BLU  
Industry first full range of Dim to Warm LED products

2013

Integrated LED luminaires introduced

2012

Patented LED module - TECOH® MHx  
TECOH® CFx – World's first 2000lm Zhaga Book2 Certified Light Engine

2011

R9 technology introduced to LED range  
The first NVLAP lab certification for LED products

2010

Launched the first MEGAMAN® LED Candle and Classic  
International office for Professional Marketing opens in Europe

2009

Innovative Thermal Conductive Highway™ technology incorporated into MEGAMAN® LED reflectors  
NVLAP lab certification for CFL products

2008

Amalgam technology is employed in full CFL range

2007

DIMMERABLE® technology introduced to CFL range

2005

DorS technology introduced to CFL range  
Industry first RoHS compliant CFL  
MEGAMAN® goes global, selling lamps in over 90 countries

2004

*INGENIUM*® technology is introduced to CFL lamps for long life and short preheating time

2002

Industry first CFL GU10 reflector launched  
Introduced Silicone Protection technology to CFL range

1999

Patented Cooling-Tube technology introduced to CFL range

1997

Industry first candle-shaped CFL

1996

Industry first classic-shaped CFL

1994

MEGAMAN® incorporated

# Rigorous Quality and Management Systems

All MEGAMAN® products are designed, tested and produced in our own factories in Xiamen, China. Standards have been implemented factory-wide to ensure the MEGAMAN® manufacturing processes deliver innovative, reliable and safe products with high-quality standards now and in the future.

To ensure that MEGAMAN® products comply with the highest quality standards, company manufacturing plants are equipped with their own assembly lines. The in-house laboratory is ISO 17025 certified by CNAS and NVLAP, and is eligible to perform on-site testing for Intertek, TÜV Rheinland, UL and Energy Star.

The MEGAMAN® business runs under the most stringent management and quality systems. The green elements of the production process are maximised, employee welfare is prioritised and the company is socially responsible to the local community. To continually develop these areas, MEGAMAN® has undertaken a range of international accreditations. These include:

## Quality Management System

MEGAMAN® products are manufactured and certified to ISO 9001:2015, ISO 14001:2015, OHSAS 18001:2007, SA 8000:2014 and QC 080000:2012.

## Corporate Social Responsibility

MEGAMAN® has received OHSAS 18001:2007 and SA 8000:2008, confirming the level of care for employees and reinforcing the company's pledge to be socially responsible.

## Controlling the Use of Hazardous Substances

MEGAMAN® plants are QC 080000 certified, underlining the fact that company manufacturing processes are closely monitored to ensure ultimate control of hazardous substances.

## Product Quality Assurance

MEGAMAN® products are made using premium quality materials and innovative technologies within stringent control measures, to deliver maximum performance and energy efficiencies.

## Innovative and Unique Products

With our patented LED design and technology, the MEGAMAN® LED products are able to deliver superb performance, including low power consumption, excellent light output and low maintenance costs. They provide the highest quality lighting performance of any LED based product on the market consuming the same power!

A new era in LED lighting solutions.

## Unique Features

- Energy efficient replacement for traditional metal halide, CFL, halogen and incandescent lamps
- Deliver superb lighting performance
- High luminous efficacy up to 177lm/W
- High lumen maintenance: rated lumen maintenance of 70% (L70) at up to 50,000 hours life
- Long rated life up to 50,000 hours
- High colour rendering up to Ra97
- High colour temperature consistency
- Different colour temperature options of Mellotone, Warm White, Cool White and Brilliant Tone
- Options of different beam angles for the LED Reflector range
- Up to 91% energy savings
- Simple installation and servicing
- No UV and IR radiation

## Additional Benefits

- Mercury-free
- Instant start-up
- Wide range of operating temperatures

## Applications

- Boutiques / Shops
- Shopping Malls
- Hotels / Restaurants / Lounges
- Museums
- Galleries
- Offices
- Household

# The Banning of Traditional Light Sources

From 1 September 2016, the phasing out of mains voltage halogen reflector lamps will begin in the EU. Even standard halogen energy saving light bulbs will go the same way two years later.

This trend is set to continue across the world but MEGAMAN® is more than ready with reliable and affordable energy efficient solutions to replace every use of these outdated technologies, supported by its global distribution.

## Using light vs Consuming light

With traditional high-energy consuming light sources being phased out, the high quality and durability of MEGAMAN® light sources offers the opportunity for us to use light over a period of years, rather than consume and replace it, as we have been used to.

As a brand that has only manufactured low-energy lighting products over 20 years, MEGAMAN® understands that light quality is every bit as important as energy savings.

Offering between 15,000 and 50,000 hour lifetimes, outstanding colour quality through our RichColour range, unique dim-to-warm functionality and even smart lighting control, MEGAMAN® products provide not just a replacement for conventional light sources and fixtures, but an enhancement to any lighting scheme.

Short payback times thanks to the high efficacy of our products, as well as the availability of Economy and Smart ranges alongside our Professional offering, means that in terms of affordability, MEGAMAN® has a solution to suit all customers. Customers will be using the same MEGAMAN® lamp year after year, rather than consuming and throwing away outdated conventional light sources.

# Phase-out Schedule

## Directional Lamps

under Commission Regulation (EC) No.1194/2012

Starting September		2012	2013	2014	2015	2016	2017	2018
<b>A++</b>								
<b>A+</b>								
<b>A</b>								
<b>B</b>	Halogen MR11, halogen MR16 <sup>1</sup> and high efficiency halogen AR111 					Will be phased out in Sept 2016		
	Less efficient CFL and LED reflectors 		Already phased out in Sept 2013 with few exceptions <sup>2</sup>					
<b>C</b>	Halogen AR48, halogen AR70 and low efficiency halogen AR111 			Already phased out in Sept 2014				
<b>D</b>	Halogen reflectors PAR16, PAR20, PAR30, PAR38, R50, R63 and R80 					Will be phased out in Sept 2016		
<b>E</b>	Incandescent reflector and less efficient halogen reflectors R50, R63, R80 and PAR38 	Already phased out in Sept 2013						

## Non-directional lamps

under Commission Regulation (EC) No. 244/2009

Starting September		2012	2013	2014	2015	2016	2017	2018
<b>A++</b>								
<b>A+</b>								
<b>A</b>								
<b>B</b>	High efficiency halogen G4 lamps 	Remains after Sept 2018						
	Less efficient CFL and LED lamps 	Already phased out in Sept 2009 with few exceptions <sup>3</sup>						
<b>C</b>	High efficiency halogen R7s lamps 	Remains after Sept 2018						
	Low efficiency halogen G4 lamps 	Originally C class were to be banned in Sept 2016, but the schedule has been postponed to Sept 2018						<b>Ban</b>
<b>D</b>	High efficiency halogen G9 lamps 	Remains after 2018						
	Halogen energy saver lamps (including Candle and Classic) and low efficiency halogen R7s lamps 	Originally D class were to be banned in Sept 2016, but the schedule has been postponed to Sept 2018						<b>Ban</b>
<b>E</b>	Clear incandescent lamps and low efficiency halogen G9 lamps 	Already phased out in Sept 2012						

Remarks:

1 Standard MR16 halogen phase out, while some specialist IRC types may still comply.

2 Exceptions includes:

- CFL lamp with CRI ≥90
- lamps with anti-glare shield

3 Exceptions includes:

- discharge lamp with cap GX53
- discharge lamp with CRI ≥90 and colour temperature ≥5000K
- non-clear lamp with CRI ≥90
- non-clear lamp with second envelope

4 Opal and pearl lamps were all banned from 2010.

## Product Series

As a leading innovator of LED technology, MEGAMAN® has developed an extensive range of LED products for various domestic and commercial applications. Our products are classified into three main categories, namely Professional, Smart and Economy series. Each series has its own features designed to meet every need of consumers and professionals.

### Professional Series

Suitable for commercial and high-end interior applications, the Professional series delivers high quality and comfortable light sources. This series possesses the advantages of powerful lighting performance, perfect optical design and excellent colour rendering. Having a similar profile and outlook to traditional halogen lamps, the MEGAMAN® LED reflector in Professional series is designed with unique technology such as our Hybrid Reflector and the patented Thermal Conductive Highway™ (TCH) technology for maximum durability and value over lifetime.

### Smart Series

This series is a value-added option for consumers looking for high quality lighting at affordable prices. Featuring superb light output with high efficacy and performance, the Smart series is an ideal replacement for traditional incandescent or halogen lamps. The benefits of energy savings up to 90% and longer lamp life add to its appeal for consumers.

### Economy Series

The most economical option among all series which serves an entry-level LED solution to replace halogen, incandescent and CFL lamps. Its long rated lamp life and high energy savings provide all the advantages you expect over traditional lighting products, but with the MEGAMAN® guarantee of quality.

# Perfect White

Brings whites to life

## Perfect White

MEGAMAN® Perfect White technology is a solution that offers retailers a distinct advantage enhancing textiles by bringing whites to life while still offering superb efficacy and energy efficiency, compared to traditional light sources. It is ideally suited for retail lighting as well as other accent and display applications.

The Perfect White range produces a high quality light that mimics the effect of daylight on white objects, giving them a natural vibrancy that makes them stand out from crowd.

Designed to replace 75W halogen AR111, MEGAMAN® LED AR111 reflectors with Perfect White technology saves up to 84% of energy while delivering excellent light output. Its long lasting nature greatly reduces maintenance time and the glass cover design makes maintenance even easier.

# INGENIUM® BLU

INGENIUM® BLU is a brand new series of LED lamps which use Bluetooth technology to connect to and control lighting fixtures in homes and commercial spaces. With the INGENIUM® BLU solution's integrated Bluetooth technology you can enjoy the benefits of smart lighting with instant and easy set-up.

## Simple and Affordable

**INGENIUM® BLU is the most economical way to get started with a smart lighting solution.**

### Easy Installation

Can be set up without wiring, making it accessible and cost-effective for everyone

### Mobile Control

Control the latest MEGAMAN® LED via a smart devices

### Scene Setting

Set lighting routines that fit your lifestyle

### Energy-savings

High energy savings when dimming function is used

# INGENIUM® BLU

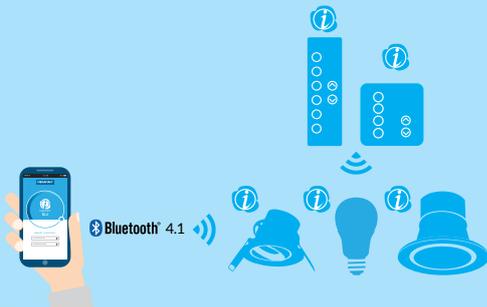

## INGENIUM® BLU

INGENIUM® BLU applies Bluetooth 4.1 technology and uses a mesh network topology – a key network architecture that extends the coverage area several times wider than before and allows for the control of substantially more lamps or devices – all while using less of your smart device’s battery power. Giving users simultaneous control of up to 8

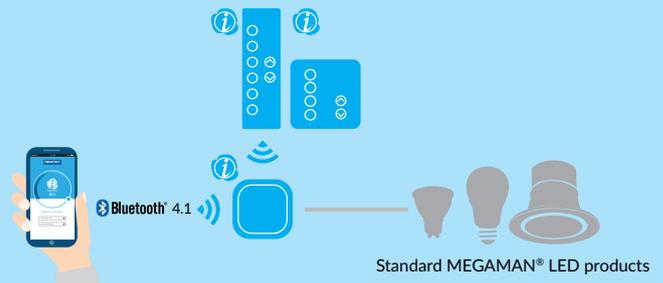

times more lamps or devices (64) than with its first generation products, the upgraded INGENIUM® BLU system also boasts improved dimming performance with a range of 100%-5%.

### with Retrofit LED Products

#### How it works

### with Dimming Modules

## INGENIUM® BLU App

Simple, stylish and intelligent – the advantages include easy installation, availability of direct LED retrofit, wireless compatibility, dimming feature, precision scene setting and greater energy-saving using the app.

### Power

Switch the lights on and off

### Dimming

Adjust brightness level with linear dimming functions

### Timer

Pre-set the time to light up the lamp from lowest to full brightness

### Grouping

Control lighting devices room-by-room

### Scenes

Set programmers for your favorite settings for repeated use

## Technical Information

Bluetooth version	4.1
Expected coverage	10 metres
Maximum number of lamps / devices to be connected at the same time	64
Maximum number of groups	At least 8 groups available (dependent of smart device)
Maximum number of lamps per group	64
Maximum number of scene set per group	At least 8 scenes available (dependent of smart device)
Control unit	Smart device with app (iOS or Android), remote controller and wall-mounted controller
Network topology	Mesh
Applications	Household use, showroom, lounge, function room, conference room, reception area, office, etc.
Recommended operating systems versions of the smart devices	iOS 7.1 and later version, Android 4.4 and later version

# INGENIUM® ZB

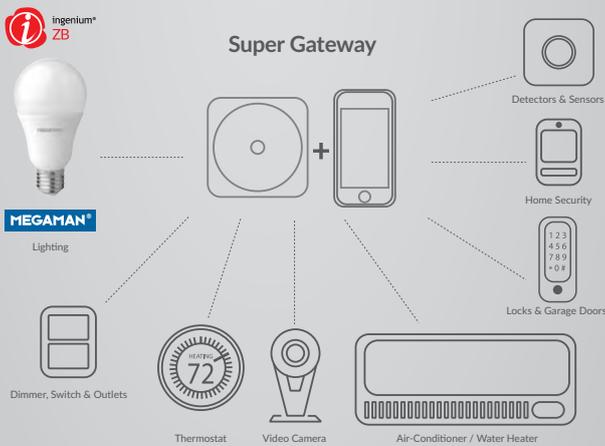

## Scalable and Interoperable Smart Lighting System for High-end Applications

INGENIUM® ZB is a scalable smart lighting solution working with ZigBee® technology that allows users to gain wireless control over all INGENIUM® ZB lighting products. It is compatible with popular ZigBee® equipped super gateways, allowing you to add general lighting to your smart home automation system.

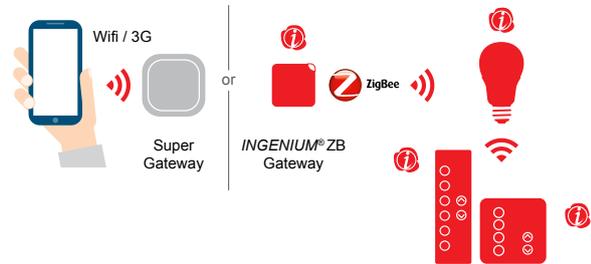

## Compatible with Common ZigBee® Equipped Super Gateways

Allows interoperability between MEGAMAN® LED lighting and other home equipment

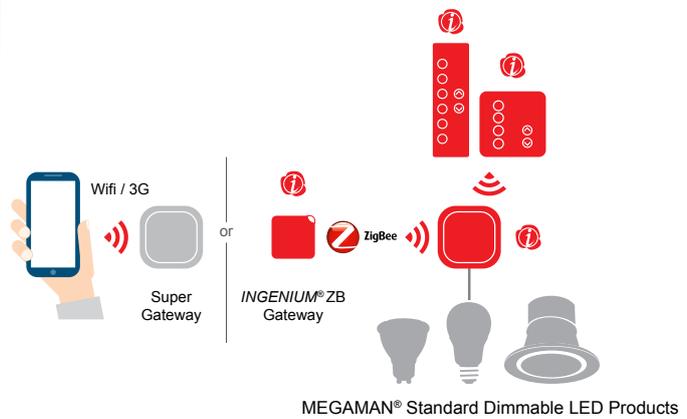

## How it works

### with Retrofit LED Products

### with Dimming Modules

Compatible with other ZigBee smart home solutions

Scalable, large coverage

Remote access

# MEGAMAN® Smart Lighting – INGENIUM® ZB

MEGAMAN® Smart Lighting will be a bridge between general lighting and smart home system

## INGENIUM® ZB Products

The LED CLUSTERLITE® is not water resistant. The waterproof performance of the lamp would only be attained if the lamp is used with a light fitting with an IP rating of IP44 or above. The ambient temperature inside the fixture must not exceed 60°C, which is equivalent to a minimum volume of 120 x 360 x 220 (mm). The noise level for LH0127 and LH0132 is 23dB in an enclosed fixture and 35dB when free burning. The noise level for LH0133 and LH0246 is 28dB in an enclosed fixture and 40dB when free burning.
